

The P.S. 261 Acceptable Use Agreement & Pledge 2017

By signing you show that you understand your responsibilities in using the Internet and technology.

-Students utilizing school-provided technology and Internet access must first have the permission of a staff member.

-Students utilizing school-provided technology and Internet access are responsible for being a good digital citizen and good behavior online just as they are in a classroom or other areas of the school.

-Students utilizing school-provided technology are responsible for keeping the equipment in the same condition or better condition than they find it.

Students will use the school-provided technology and Internet access in support of research and education and only use the sites, apps, and materials that they are instructed to use.

-Students will help and teach those in need.

-Access is a privilege, not a right.

-Access entails responsibility. By adhering to this policy you will be allowed to use the technology at our school.

Choosing to not honor this pledge will result in suspension of your technology use privileges. Students will complete a reflection sheet and their family will be notified of the incident. If a second incident occurs technology privileges will be removed for the rest of the year.

I understand the P.S. 261 Acceptable Usage Policy for using technology. I will use technology only in the ways stated above and will behave appropriately.
